  - Ind-AS 113 – Fair Value measurement

### b) Valuation Standards

- Further, Section 247 of the Companies Act, 2013 prescribes that “where a valuation is required to be made in respect of any property, stocks, shares, debentures, securities or goodwill or any other assets (herein referred to as the assets) or net worth of a company or its liabilities under the provision of this Act, it shall be valued by person having such qualifications and experience and registered as a valuer in such manner, on such terms and conditions as may be prescribed and appointed by the audit committee or in its absence by the Board of Directors of that company”.
- Sub-section 2 of Section 247 further states that “the valuer appointed under sub-section (1) shall,
  - make an impartial, true and fair valuation of any assets which may be required to be valued;
  - exercise due diligence while performing the functions as valuer;
  - make the valuation in accordance with such rules as may be prescribed; and
  - not undertake valuation of any assets in which he has a direct or indirect interest or becomes so interested at any time during a period of three years prior to his appointment as valuer or three years after the valuation of assets was conducted by him.
- Further, the Ministry of Corporate Affairs (MCA) have prescribed Companies (Registered Valuers and Valuation) Rules, 2017 (“Valuation Rules”) which prescribe the conditions of registration and conduct of valuation.
- Rule 8 of the Valuation Rules, which deals with the conduct of valuations, prescribe that the registered valuer shall, while conducting a valuation, comply with the valuation standards as notified or modified under rule 18. Provided that until the valuation standards are notified or modified by the Central Government, a valuer shall make valuations as per:
  - Internationally accepted valuation standards;
  - Valuation standards adopted by any registered valuers organisation.

Since the Central Government has yet not notified any valuation standards, I have carried out the valuation on the basis of International Valuation Standards 2019 (“IVS”) and Indian Valuation Standards 2018 issued by the Institute of Chartered Accountants of India, a registered valuers organization.

**c) Concept of Fair Value**

- Fair value measurement is a fundamental concept forming the underlying basis for the Ind AS framework. Fair valuation of certain assets and liabilities is a prerequisite for the adoption of Ind AS.
- Ind AS 113 defines “**Fair Value**” as “*price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.*”
- Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same—to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (ie an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

**d) Fair Value Hierarchy**

- To increase consistency and comparability in fair value measurements and related disclosures, Ind AS establishes a fair value hierarchy that categorises into three levels as below:

	Definition	Examples
Level 1	Quoted prices (unadjusted) in active markets for identical assets/liabilities that entity can access at measurement date	<ul style="list-style-type: none"> <li>• Quoted prices of shares traded on stock exchange</li> <li>• Dealer Markets</li> <li>• Brokered Markets</li> </ul>
Level 2	Inputs other than quoted prices with in level 1 those are directly/indirectly observable	<ul style="list-style-type: none"> <li>• Quoted prices for similar assets/liabilities in active or unquoted markets</li> <li>• Market corroborated inputs</li> </ul>
Level 3	Unobservable inputs for asset/liability	<ul style="list-style-type: none"> <li>• Financial forecasts</li> <li>• Historical volatility</li> </ul>

**e) Fair Valuation of Financial instruments**

- Financial instrument is defined as any contract that gives rise to both
  - A financial asset of one entity, and

- A financial liability or equity instrument of another entity
- All financial assets and liabilities are measured initially at fair value under Ind AS 109.
- The way financial instruments are classified under Ind AS 109 drives how they are measured and where measurement changes are accounted for.
- Para 15 of Ind-AS 32 provides for classification of a financial instrument into debt or equity on the basis of substance over form. It provides that “the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument.
- An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The presentation by the issuer of a financial instrument or its component parts as liability or equity is determined based on principles of classification contained in Ind AS 32.

**f) Valuation Bases**

- IVS 102 defines the Valuation Bases and prescribes the corresponding fundamental assumptions on which valuation will be based and provides the premises of values.
  - IVS 102 provides three valuation bases which are required to be chosen by the Valuer considering the terms and purpose of the valuation engagement.
    - **Fair value:** Price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.
    - **Participant specific value:** Estimated value of an asset or liability after considering the advantages and disadvantages that may arise to the owner, identified participant or identified acquirer.
- Premise of Value:** The logic behind the current and future use of the asset. Some common premises of value are highest-and-best-use, as-is-where-is, going concern value, orderly liquidation and forced transaction.

**g) SEBI Guidelines for pricing of quoted equity shares**

SEBI circular CFD/DIL1/CIR/P/2021/000000065 dated 23<sup>rd</sup> November 2021 and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (ICDR Regulations) as amended on 14<sup>th</sup> January 2022, prescribes guidelines for pricing of shares to be as below:

**Pricing of equity shares**

‘Frequently traded shares’ as defined under Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 is as below:

*164 (5). Frequently traded shares means shares of an issuer, in which the traded turnover on any recognised stock exchange during the 240 trading days preceding the relevant date, is at least ten per cent of the total number of shares of such class of shares of the issuer: Provided that where the*

*share capital of a particular class of shares of the issuer is not identical throughout such period, the weighted average number of total shares of such class of the issuer shall represent the total number of shares.]*

For the definition of 'frequently traded' shares, 'relevant date' for the purpose of computing pricing shall be the date of board meeting in which the scheme is approved.

We understand that the shares of Vertoz are frequently traded as the trading volume of the equity shares of Listed were more than 10% of the total number of shares during the 240 trading days preceding the relevant date.

Explanation to section 164 of the ICDR Regulations provides that–

*For the purpose of this regulation, 'stock exchange' means any of the recognised stock exchange(s) in which the equity shares of the issuer are listed and in which the highest trading volume in respect of the equity shares of the issuer has been recorded during the preceding 90days prior to the relevant date.*

In the present case, since equity shares of Vertoz are listed o NSE and the shares are being frequently traded (in terms of relevant regulation of SEBI issue of Capital and Disclosure Requirements (ICDR) Regulations). In line with Explanation to section 164, we have considered volume weighted average price as per NSE for the appropriate period for valuation.

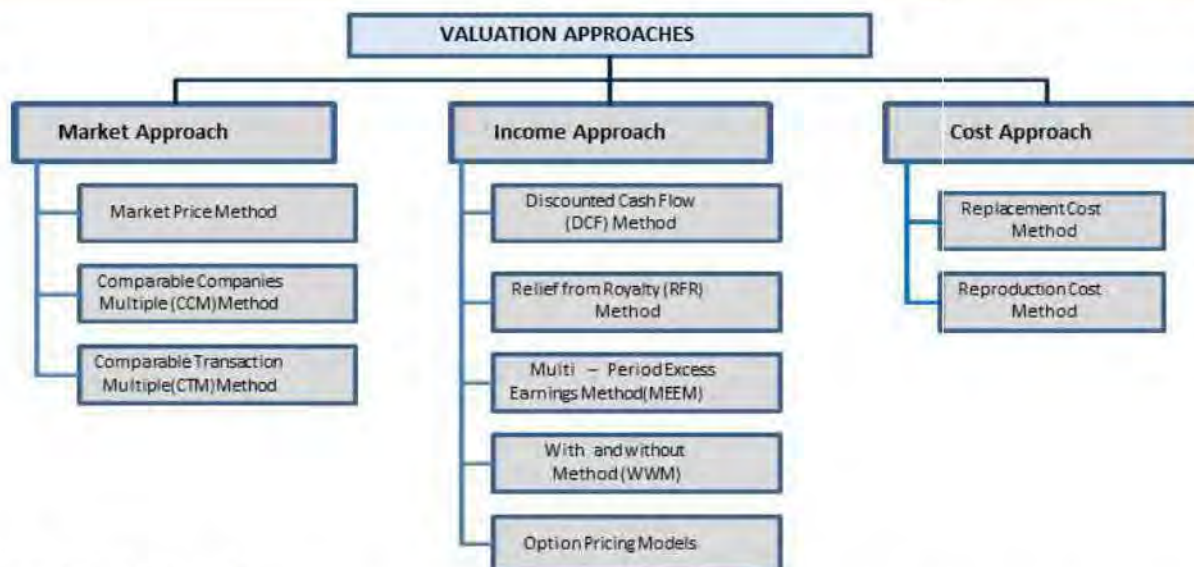

For determining the price of shares of Vertoz, we have also considered the computation of market price as prescribed in Regulation 164(1) under SEBI (Issue of Capital and Disclosure Requirements) Regulations, which prescribes using Market prices being higher of the following:

- (a) The 90 trading days volume weighted average price of the related equity shares quoted on the recognised stock exchange preceding the relevant date; or
- (b) The 10 trading days volume weighted average prices of the related equity shares quoted on a recognised stock exchange preceding the relevant date.

#### **h) Valuation Methodologies**

The valuation standards provides for following main valuation methods:

- **Market Approach**

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

- **Market Price Method**

Under this method, the market price of an equity share of the company as quoted on a recognized stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded. The market value generally reflects the investor's perception about the true worth of the company.

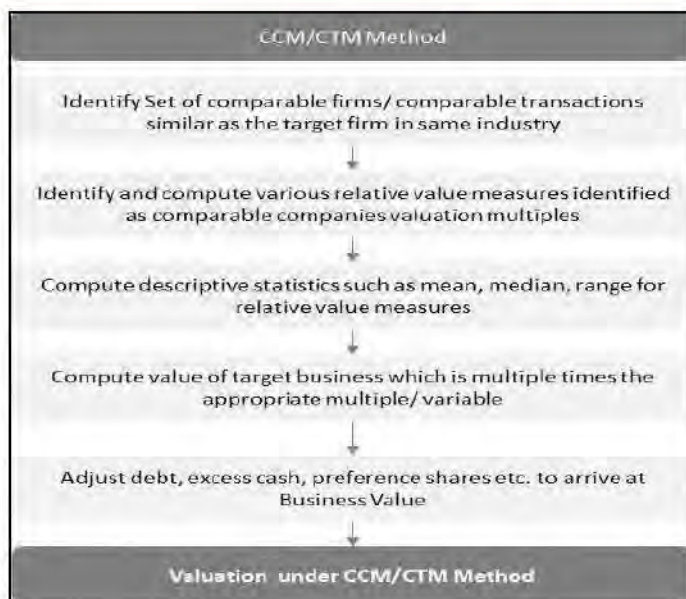

- **Comparable Companies Multiples (CCM) Method**

The value is determined on the basis of the multiples derived from valuations of comparable companies, as manifest in the stock market valuations of listed companies. This valuation is based on principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

- **Comparable Transactions Multiples (CTM) Method**

Under CTM Method, the value is determined on the basis of multiples derived from valuations of similar transactions in the industry. Relevant multiples need to be chosen carefully and adjusted for differences between circumstances.

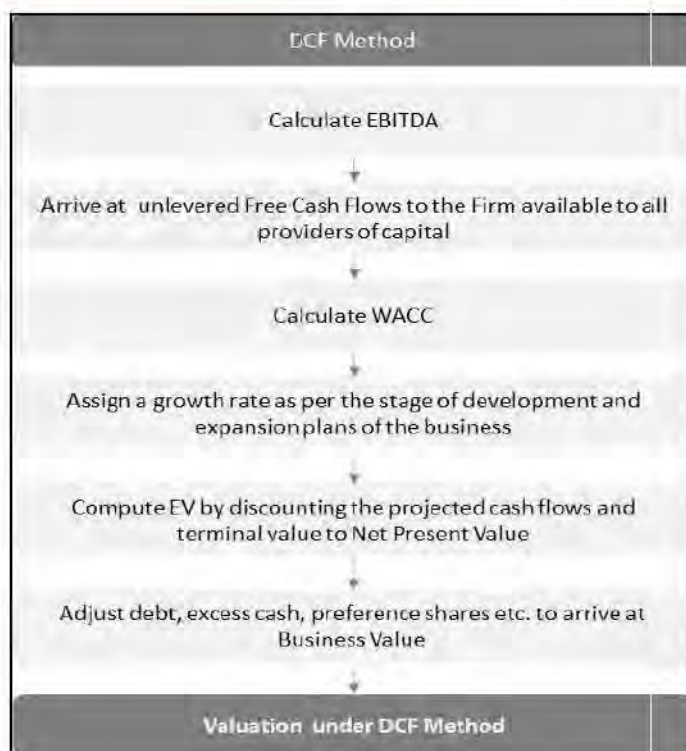

- **Income Approach**

- **Discounted Cashflow Approach (“DCF”)**

- DCF Approach is widely used for valuation under ‘Going Concern’ basis. It focuses on the income generated by the company in the past as well as its future earning capability.
- Under the DCF method, the business is valued by discounting its free cash flows for the explicit forecast period and the perpetuity value thereafter. The free cash flows in the explicit period and those in perpetuity are discounted by Weighted Average Cost of Capital (WACC). The WACC, based on an optimal vis-à-vis actual capital structure, is an appropriate rate of discount to calculate the present value of future cash flows as it considers debt-equity risk by incorporating debt-equity ratio of the firm.
- The perpetuity (terminal value) is calculated based on the business potential for further growth beyond the explicit forecast period. The “Constant Growth Model” is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of forecast period.
- The discounting factor reflects not only the time value of money, but also the risk associated with the future business operations. The Enterprise Value (aggregate of present value of explicit period and terminal period cash flows) so derived, is further reduced by value of debt, if any, (net of cash and cash equivalents) to arrive at value to the owners of business.

<<This space is intentionally left blank>>

- **Cost Approach**

Cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

- **Replacement Cost Method**  
Replacement Cost Method, also known as 'Depreciated Replacement Cost Method' involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.
- **Reproduction Cost Method**  
Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.
- **Net Asset Value / Asset based Approach**  
The NAV Method considers assets and liabilities, including intangible assets and contingent liabilities. The Net Assets, after reducing the dues to the preference shareholders, if any represent the value of the Company. It is best used when the company is non-operating or has been generating losses.

## 6. Valuation Analysis

---

### a) Procedures adopted in carrying out the valuation

The principal procedures adopted in carrying out the valuation are briefly summarized below:

- Review of past financials;
- Review and analysis of financial projections;
- Industry analysis;
- SWOT analysis;
- Comparison with similar transactions;
- Comparison with other similar listed companies;
- Discussions with the management;
- Review of principal agreements/documents etc;

### b) Significant Assumptions on Management Projections

The various projections of business growth, profitability, and cash flows etc, which are used in the valuation report are the company's estimates. I have considered the reliability and credibility of projections after testing the assumptions made by the management/owners/company in given market conditions and after sufficient inspection, enquiry, computation and analysis and I believe they are reasonable as on the Valuation date given the state of the economy, sector, business and government policies

### c) Selection of Valuation Methodology

The valuation exercise involves selecting a method suitable for the purpose of valuation, by exercise of judgment, based on the facts and circumstances as applicable to the business of the Companies to be valued.

As mentioned earlier, the present valuation exercise is being undertaken in order to derive the Share Entitlement Ratio for the Proposed Transaction.

Hence, the following valuation approach has been adopted:

- For valuation of PTPL – – Since PTPL and AdMeridian is a Parent Holding Company having investments in Wholly owned Subsidiaries and Step-Down Subsidiaries; the NAV method of Valuation reflects the potential value of PTPL. Therefore, we have considered Net Asset Method of Valuation for PTPL and AdMeridian.
- For valuation of Vertoz - Since Vertoz is a listed company, it is governed by Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulation, 2018 as amended from time to time ("ICDR Regulations"). Therefore, we have used the pricing guidelines as prescribed under SEBI ICDR Regulation 2018 as amended on 14<sup>th</sup> January 2022.
- For valuation of wholly owned Subsidiaries and Sub-Subsidiaries – Since the wholly owned subsidiaries and sub-subsidiaries are operating companies, we believe that NAV is not appropriate for valuing the business. DCF approach reflects the potential value of the business in the future years. Hence, DCF Method would be an appropriate method for the valuation of subsidiaries.

## 7. Valuation Conclusion

---

Based on the forgoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, I have arrived at the values per share as follows:

Company	Per share value
PayNX Technologies Private Limited	Rs. 1,79,668.04
Vertoz Advertising Limited	Rs. 94.33

The Share Entitlement Ratio is based on the valuation methodologies explained herein earlier and various qualitative factors relevant to the business dynamics and growth potential of the business having regard to key underlying assumptions and limitations.

Based on the above, and on the consideration of all the relevant factors and circumstances as discussed and outlined herein above, we recommend the following Share Entitlement Ratio (as elaborated in Annexure 1):

- 1,904 (One Thousand Nine hundred and four) Equity Shares of Rs. 10/- each of Vertoz for every 1 (one) fully paid up equity share of Rs. 10/- each held in PTPL.

<<This space is intentionally left blank>>

**8. Annexure 1 : Computation of Fair Share Entitlement Ratio**

The Computation of Fair Share Entitlement Ratio as derived by us is given below:

Valuation Approach	Equity Shares of PTPL (A)		Equity shares of Vertoz (B)	
	Value per Share	Weights	Value per Share	Weights
Asset Approach	179,668.04	100%	N.A	-
Income Approach	N.A	-	N.A	-
Market Approach (Market Price Method)	N.A	-	94.33	100%
<b>Relative Value per share</b>	<b>179,668.04</b>		<b>94.33</b>	
<b>Exchange Ratio (A/B)</b>			<b>1,904</b>	

N.A = Not Adopted / Not Applicable

1. The Asset Approach is used for PTPL since it is an Parent Holding Company having Investments in Wholly owned Subsidiaries and Step-Down Subsidiaries
2. DCF Approach is widely used for valuation under 'Going Concern' basis therefore in case of Wholly owned Subsidiaries and Step-Down Subsidiaries of PTPL we have used the financial Projections as provided by the Management of PTPL for the Valuation of Wholly owned Subsidiaries and Step-Down Subsidiaries under DCF method. For Vertoz, DCF method is not approved by ICDR regulations by SEBI.
3. The Shares of PTPL are not listed; therefore Market Price Method cannot be used for its Valuation. As a mandatory requirement by law, the Shares of Listed Entity Vertoz are required to be valued as per the Pricing Guidelines issued by SEBI. We have given due consideration to this requirement.

**SHARE ENTILEMENT RATIO**

1,904 (One Thousand Nine hundred and four) Equity Shares of Rs. 10/- each of Vertoz for every 1 (one) fully paid up equity share of Rs. 10/- each held in PTPL.

The valuation of companies and assets is made based on the available facts and circumstances and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. I have not conducted any inspection or investigations of the Company and have solely relied on the documents and representations provided by the Client and as stated above.

#### **5. Applicable Regulations & Valuation Methodologies**

---

##### **a) Accounting Standards**

- Section 133 of the Companies Act, 2013 (Cos Act) read with the Companies (Indian Accounting Standards) Rules, 2015 have prescribed Indian Accounting Standards (“Ind-AS”). The relevant Ind-AS considered for the purpose of this report are as follows:
  - Ind-AS 107 – Financial Instruments: Disclosures
  - Ind-AS 109 – Financial Instruments
  - Ind-AS 32 – Financial Instruments - Presentation
  - Ind-AS 113 – Fair Value measurement

**b) Valuation Standards**

- Further, Section 247 of the Companies Act, 2013 prescribes that “*where a valuation is required to be made in respect of any property, stocks, shares, debentures, securities or goodwill or any other assets (herein referred to as the assets) or net worth of a company or its liabilities under the provision of this Act, it shall be valued by person having such qualifications and experience and registered as a valuer in such manner, on such terms and conditions as may be prescribed and appointed by the audit committee or in its absence by the Board of Directors of that company*”.
- Sub-section 2 of Section 247 further states that “the valuer appointed under sub-section (1) shall,
  - make an impartial, true and fair valuation of any assets which may be required to be valued;
  - exercise due diligence while performing the functions as valuer;
  - make the valuation in accordance with such rules as may be prescribed; and
  - not undertake valuation of any assets in which he has a direct or indirect interest or becomes so interested at any time during a period of three years prior to his appointment as valuer or three years after the valuation of assets was conducted by him.
- Further, the Ministry of Corporate Affairs (MCA) have prescribed Companies (Registered Valuers and Valuation) Rules, 2017 (“Valuation Rules”) which prescribe the conditions of registration and conduct of valuation.
- Rule 8 of the Valuation Rules, which deals with the conduct of valuations, prescribe that the registered valuer shall, while conducting a valuation, comply with the valuation standards as notified or modified under rule 18. Provided that until the valuation standards are notified or modified by the Central Government, a valuer shall make valuations as per:
  - Internationally accepted valuation standards;
  - Valuation standards adopted by any registered valuers organisation.

Since the Central Government has yet not notified any valuation standards, I have carried out the valuation on the basis of International Valuation Standards 2019 (“IVS”) and Indian Valuation Standards 2018 issued by the Institute of Chartered Accountants of India, a registered valuers organization.

**c) Concept of Fair Value**

- Fair value measurement is a fundamental concept forming the underlying basis for the Ind AS framework. Fair valuation of certain assets and liabilities is a prerequisite for the adoption of Ind AS.
- Ind AS 113 defines “**Fair Value**” as “*price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.*”
- Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same—to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (ie an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

**d) Fair Value Hierarchy**

- To increase consistency and comparability in fair value measurements and related disclosures, Ind AS establishes a fair value hierarchy that categorises into three levels as below:

	Definition	Examples
Level 1	Quoted prices (unadjusted) in active markets for identical assets/liabilities that entity can access at measurement date	<ul style="list-style-type: none"> <li>• Quoted prices of shares traded on stock exchange</li> <li>• Dealer Markets</li> <li>• Brokered Markets</li> </ul>
Level 2	Inputs other than quoted prices with in level 1 those are directly/indirectly observable	<ul style="list-style-type: none"> <li>• Quoted prices for similar assets/liabilities in active or unquoted markets</li> <li>• Market corroborated inputs</li> </ul>
Level 3	Unobservable inputs for asset/liability	<ul style="list-style-type: none"> <li>• Financial forecasts</li> <li>• Historical volatility</li> </ul>

**e) Fair Valuation of Financial instruments**

- Financial instrument is defined as any contract that gives rise to both
  - A financial asset of one entity, and
  - A financial liability or equity instrument of another entity

- All financial assets and liabilities are measured initially at fair value under Ind AS 109.
- The way financial instruments are classified under Ind AS 109 drives how they are measured and where measurement changes are accounted for.
- Para 15 of Ind-AS 32 provides for classification of a financial instrument into debt or equity on the basis of substance over form. It provides that “the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument.
- An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The presentation by the issuer of a financial instrument or its component parts as liability or equity is determined based on principles of classification contained in Ind AS 32.

**f) Valuation Bases**

- IVS 102 defines the Valuation Bases and prescribes the corresponding fundamental assumptions on which valuation will be based and provides the premises of values.
- IVS 102 provides three valuation bases which are required to be chosen by the Valuer considering the terms and purpose of the valuation engagement.
  - **Fair value:** Price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.
  - **Participant specific value:** Estimated value of an asset or liability after considering the advantages and disadvantages that may arise to the owner, identified participant or identified acquirer.  
**Premise of Value:** The logic behind the current and future use of the asset. Some common premises of value are highest-and-best-use, as-is-where-is, going concern value, orderly liquidation and forced transaction.

**g) SEBI Guidelines for pricing of quoted equity shares**

SEBI circular CFD/DIL1/CIR/P/2021/000000065 dated 23<sup>rd</sup> November 2021 and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (ICDR Regulations) as amended on 14<sup>th</sup> January 2022, prescribes guidelines for pricing of shares to be as below:

**Pricing of equity shares**

‘Frequently traded shares’ as defined under Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 is as below:

*164(5). Frequently traded shares means shares of an issuer, in which the traded turnover on any recognised stock exchange during the 240 trading days preceding the relevant date, is at least ten per cent of the total number of shares of such class of shares of the issuer: Provided that where the share capital of a particular class of shares of the issuer is not identical throughout such period, the*

*weighted average number of total shares of such class of the issuer shall represent the total number of shares.]*

For the definition of 'frequently traded' shares, 'relevant date' for the purpose of computing pricing shall be the date of board meeting in which the scheme is approved.

We understand that the shares of Vertoz are frequently traded as the trading volume of the equity shares of Listed were more than 10% of the total number of shares during the 240 trading days preceding the relevant date.

Explanation to section 164 of the ICDR Regulations provides that–

*For the purpose of this regulation, 'stock exchange' means any of the recognised stock exchange(s) in which the equity shares of the issuer are listed and in which the highest trading volume in respect of the equity shares of the issuer has been recorded during the preceding 90 days prior to the relevant date.*

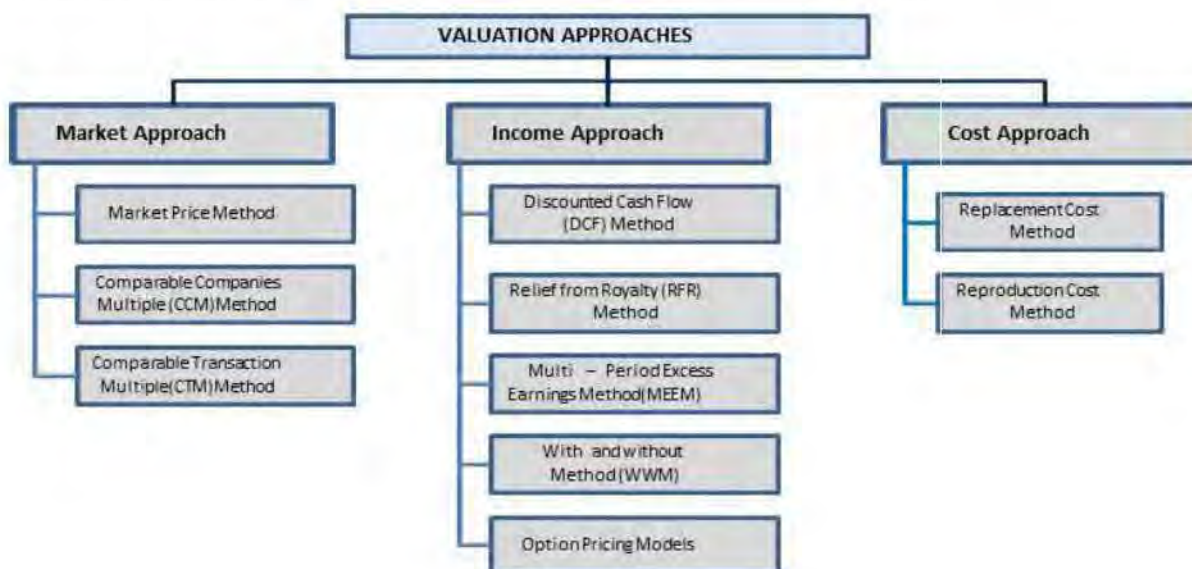

In the present case, since equity shares of Vertoz are listed on NSE and the shares are being frequently traded (in terms of relevant regulation of SEBI issue of Capital and Disclosure Requirements (ICDR) Regulations). In line with Explanation to section 164, we have considered volume weighted average price as per NSE for the appropriate period for valuation.

For determining the price of shares of Vertoz, we have also considered the computation of market price as prescribed in Regulation 164(1) under SEBI (Issue of Capital and Disclosure Requirements) Regulations, which prescribes using Market prices being higher of the following:

- (a) The 90 trading days volume weighted average price of the related equity shares quoted on the recognised stock exchange preceding the relevant date; or
- (b) The 10 trading days volume weighted average prices of the related equity shares quoted on a recognised stock exchange preceding the relevant date.

#### **h) Valuation Methodologies**

The valuation standards provides for following main valuation methods:

- **Market Approach**

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

- **Market Price Method**

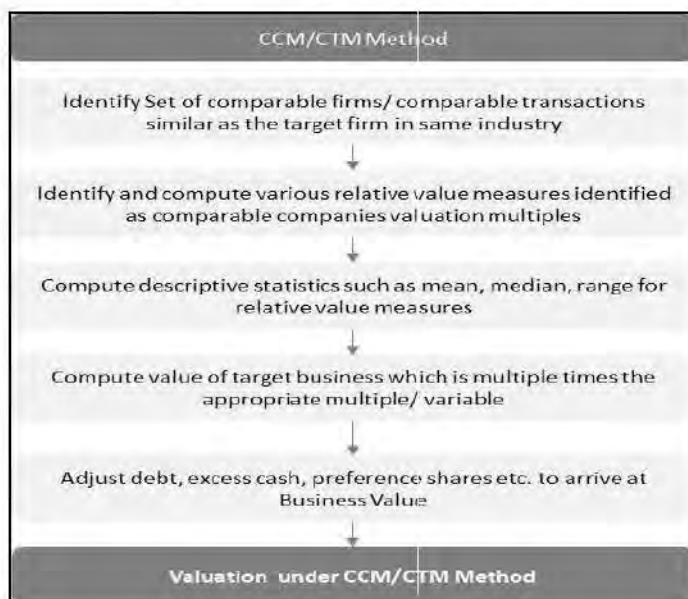

Under this method, the market price of an equity share of the company as quoted on a recognized stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded. The market value generally reflects the investor's perception about the true worth of the company.

- **Comparable Companies Multiples (CCM) Method**

The value is determined on the basis of the multiples derived from valuations of comparable companies, as manifest in the stock market valuations of listed companies. This valuation is based on principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

- **Comparable Transactions Multiples (CTM) Method**

Under CTM Method, the value is determined on the basis of multiples derived from valuations of similar transactions in the industry. Relevant multiples need to be chosen carefully and adjusted for differences between circumstances.

- **Income Approach**

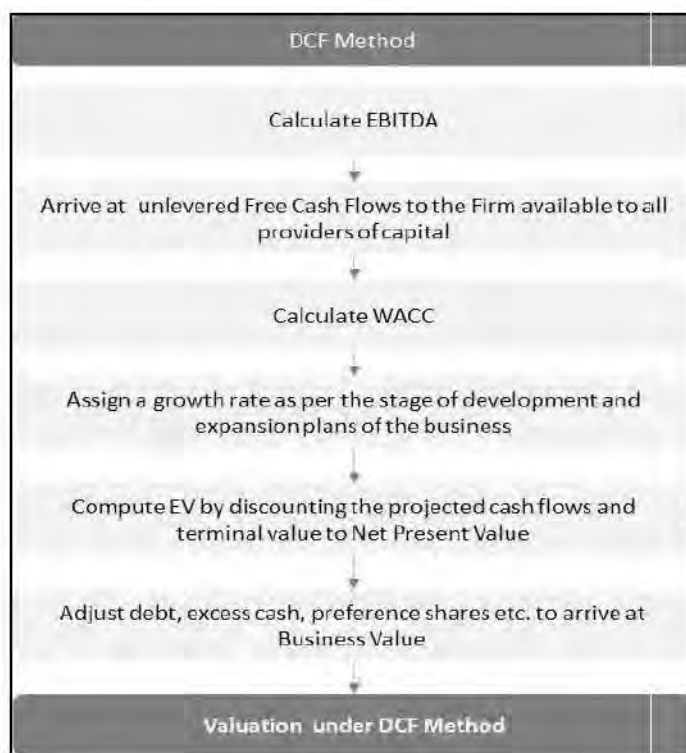

- **Discounted Cashflow Approach ("DCF")**

- DCF Approach is widely used for valuation under 'Going Concern' basis. It focuses on the income generated by the company in the past as well as its future earning capability.

- Under the DCF method, the business is valued by discounting its free cash flows for the explicit forecast period and the perpetuity value thereafter. The free cash flows in the explicit period and those in perpetuity are discounted by Weighted Average Cost of Capital (WACC). The WACC, based on an optimal vis-à-vis actual capital structure, is an appropriate rate of discount to calculate the present value of future cash flows as it considers debt-equity risk by incorporating debt-equity ratio of the firm.
- The perpetuity (terminal value) is calculated based on the business potential for further growth beyond the explicit forecast period. The “Constant Growth Model” is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of forecast period.
- The discounting factor reflects not only the time value of money, but also the risk associated with the future business operations. The Enterprise Value (aggregate of present value of explicit period and terminal period cash flows) so derived, is further reduced by value of debt, if any, (net of cash and cash equivalents) to arrive at value to the owners of business.

- **Cost Approach**

Cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

- **Replacement Cost Method**

Replacement Cost Method, also known as ‘Depreciated Replacement Cost Method’ involves valuing an asset based on the cost that a market participant shall have to incur to

recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.

○ **Reproduction Cost Method**

Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.

○ **Net Asset Value / Asset based Approach**

The NAV Method considers assets and liabilities, including intangible assets and contingent liabilities. The Net Assets, after reducing the dues to the preference shareholders, if any represent the value of the Company. It is best used when the company is non-operating or has been generating losses.

## **6. Valuation Analysis**

---

a) Procedures adopted in carrying out the valuation

The principal procedures adopted in carrying out the valuation are briefly summarized below:

- Review of past financials;
- Review and analysis of financial projections;
- Industry analysis;
- SWOT analysis;
- Comparison with similar transactions;
- Comparison with other similar listed companies;
- Discussions with the management;
- Review of principal agreements/documents etc;

b) Significant Assumptions on Management Projections

The various projections of business growth, profitability, and cash flows etc, which are used in the valuation report are the company's estimates. I have considered the reliability and credibility of projections after testing the assumptions made by the management/owners/company in given market conditions and after sufficient inspection, enquiry, computation and analysis and I believe they are reasonable as on the Valuation date given the state of the economy, sector, business and government policies

c) Selection of Valuation Methodology

The valuation exercise involves selecting a method suitable for the purpose of valuation, by exercise of judgment, based on the facts and circumstances as applicable to the business of the Companies to be valued. As mentioned earlier, the present valuation exercise is being undertaken in order to derive the Share Entitlement Ratio for the Proposed Transaction.

Hence, the following valuation approach has been adopted:

- For valuation of QWSPL - Since the company is operating company, we believe that NAV is not appropriate for valuing the business. DCF approach reflects the potential value of the business in the future years. Hence, DCF Method would be an appropriate method for the current valuation exercise.

- For valuation of Vertoz - Since Vertoz is a listed company, it is governed by Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulation, 2009 as amended from time to time ("ICDR Regulations"). Therefore, we have used the pricing guidelines as prescribed under SEBI ICDR Regulation.

## 7. Valuation Conclusion

---

Based on the forgoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, I have arrived at the values per share as follows:

Company	Per share value
Qwalispace Web services Private limited	Rs. 47,379.46
Vertoz Advertising Limited	Rs. 94.33

The Share Entitlement Ratio is based on the valuation methodologies explained herein earlier and various qualitative factors relevant to the business dynamics and growth potential of the business having regard to key underlying assumptions and limitations.

Based on the above, and on the consideration of all the relevant factors and circumstances as discussed and outlined herein above, we recommend the following Share Entitlement Ratio (as elaborated in Annexure 1):

- 502 (Five hundred and two) Equity Shares of Rs. 10/- each of Vertoz for every 1 (One) fully paid up equity share of Rs. 10/- each held in QWSPL

<<This space is intentionally left blank>>

## 8. Annexure 1: Computation of Fair Share Entitlement Ratio

The Computation of Fair Share Entitlement Ratio as derived by us is given below:

	Equity Shares of QWSPL (A)		Equity shares of Vertoz (B)	
	Value per Share	Weights	Value per Share	Weights
Asset Approach	N.A	-	N.A	-
Income Approach	47,379.46	100%	N.A	-
Market Approach (Market Price Method)	N.A	-	94.33	100%
<b>Relative Value per share</b>	<b>47,379.46</b>		<b>94.33</b>	
<b>Exchange Ratio (A/B)</b>			<b>502</b>	

N.A = Not Adopted / Not Applicable

1. The Asset approach is not used as in the present case, both the companies i.e QWSPL and Vertoz in the process of amalgamation are going concerns and an actual realization of their operating assets is not contemplated.
2. DCF Approach is widely used for valuation under 'Going Concern' basis therefore in case of QWSPL, we have used the financial projections as provided by the management of QWSPL for the valuation of QWSPL under DCF method. For Vertoz DCF method is not approved by ICDR regulations by SEBI.
3. The shares of QWSPL are not listed; therefore Market price method cannot be used for its valuation. As a mandatory requirement by law the shares of listed entity Vertoz are required to be valued as per the pricing guidelines issued by SEBI. We have given due consideration to this requirement.

### SHARE ENTITLEMENT RATIO

### **vi. Range of Value Estimate**

The valuation of companies and assets is made based on the available facts and circumstances and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. Although every scientific method has been employed in systematically arriving at the value, there is, therefore, no indisputable single value and the estimate of the value is normally expressed as falling within a likely range. value and we normally express our opinion on the value as falling within a likely range. However, as the purpose of this report requires the expression of a single value, we have adopted a value at the mid-point of our valuation range. Whilst, I / we consider the valuation to be both reasonable and defensible based on the information available, others may place a different value.

**vii. No Responsibility to the Actual Price of the subject asset if sold or transferred/ exchanged**

The actual market price achieved may be higher or lower than our estimate of value (or value range of value) depending upon the circumstances of the transaction (for example the competitive bidding environment), the nature of the business (for example the purchaser's perception of potential synergies). The knowledge, negotiating ability and motivation of the buyers and sellers and the applicability of a discount or premium for control will also affect actual market price achieved. **xi. Multiple factors affecting the Valuation Report:**

The valuation report is tempered by the exercise of my / our judicious discretion and judgment taking into account the relevant factors. There will always be several factors, e.g. management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value.

**Dear Sir, Ma'am,**

**Sub:** Clarification on requirement letter w.r.t application seeking  
NOC under Regulation 37 of the SEBI (Listing Obligations and  
Disclosure Requirements), Regulations, 2015

We have been appointed by Vertoz Advertising Limited ('Vertoz'), PayNx technologies Limited ('PTPL') and QualiSpace Web Services Private Limited ('QWSPL') (Collectively referred to as "the Clients") on January 07, 2022 for providing Valuation services for the proposed merger. We have issued our report for recommendation of share entitlement ratio as on June 24, 2022.

Subsequent to our reply to the letter dated 30<sup>th</sup> June, 2022 our Clients are in receipt of an additional letter dated 11<sup>th</sup> July, 2022 from the National Stock Exchange of India Limited ("NSE" or "Yourself") seeking clarifications, inter-alia, regarding our share entitlement ratio. Please see our clarification to your query below.

➤ **Clarification sought by NSE:**

1. Response provided by the Company for not adopting DCF approach for Vertoz Advertising Limited ('Vertoz') is not satisfactory

➤ **Our Clarification:**

In our opinion, the market price of a listed (quoted) and frequently traded equity shares on a recognised stock exchange is normally considered as the base value of the equity shares of that company where such quotations are arising from the shares being freely traded in (Market Approach). Over and above this, weightages may be given to other approaches – viz, DCF and NAV approach such that, a fair value for the purpose of share swap is ascertained, for factors that are not captured in the market price approach.

Basis on the financial projections provided by the management of Vertoz and as approved by the Audit Committee of the Company dated 30<sup>th</sup> May, 2022, we have also carried out the DCF Method valuation of Vertoz. However, as per our analysis and in our opinion, the value of the equity shares of Vertoz, based on the management projections, **is lower than the market price** of Vertoz derived as per the pricing guidelines under the SEBI ICDR Regulations. We are not in a position to provide the DCF calculations due to our client confidentiality and price sensitivity to the data.

We are of the opinion that if weightages are to be given to DCF Method for the valuation of Vertoz in our recommendation of the share entitlement ratio, it would result in the valuation of Vertoz being lower than the market price prescribed under the SEBI ICDR Regulations, which will be detrimental to the interest of the retail public shareholders.

Therefore, in the case of Vertoz, we have given 100 weightages to Market Approach (Market Price Method) basis rather than the value under Income Approach (DCF).

We hope this clarifies. Please let us know for any further clarifications / information required.

Thanking You,

Yours faithfully,

### Valuation Summary:

Some of the methods considered by the valuer for arriving at Fair Value of Shares of a Company are as under:

Valuation Methods are broadly classified into –

- **Market Approach**

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

- **Market Price Method**

Under this method, the market price of an equity share of the company as quoted on a recognized stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded. The market value generally reflects the investor's perception about the true worth of the company.

- **Comparable Companies Multiples (CCM) Method**  
The value is determined on the basis of the multiples derived from valuations of comparable companies, as manifest in the stock market valuations of listed companies. This valuation is based on principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.
- **Comparable Transactions Multiples (CTM) Method**  
Under CTM Method, the value is determined on the basis of multiples derived from valuations of similar transactions in the industry. Relevant multiples need to be chosen carefully and adjusted for differences between circumstances.
- **Income Approach**
  - **Discounted Cashflow Approach (“DCF”)**
    - DCF Approach is widely used for valuation under ‘Going Concern’ basis. It focuses on the income generated by the company in the past as well as its future earning capability.
    - Under the DCF method, the business is valued by discounting its free cash flows for the explicit forecast period and the perpetuity value thereafter. The free cash flows in the explicit period and those in perpetuity are discounted by Weighted Average Cost of Capital (WACC). The WACC, based on an optimal vis-à-vis actual capital structure, is an appropriate rate of discount to calculate the present value of future cash flows as it considers debt-equity risk by incorporating debt-equity ratio of the firm.
    - The perpetuity (terminal value) is calculated based on the business potential for further growth beyond the explicit forecast period. The “Constant Growth Model” is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of forecast period.
    - The discounting factor reflects not only the time value of money, but also the risk associated with the future business operations. The Enterprise Value (aggregate of present value of explicit period and terminal period cash flows) so derived, is further reduced by value of debt, if any, (net of cash and cash equivalents) to arrive at value to the owners of business.
- **Cost Approach**

Cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

- **Replacement Cost Method**  
Replacement Cost Method, also known as ‘Depreciated Replacement Cost Method’ involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.

- **Reproduction Cost Method**  
Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.
- **Net Asset Value / Asset based Approach**  
The NAV Method considers assets and liabilities, including intangible assets and contingent liabilities. The Net Assets, after reducing the dues to the preference shareholders, if any represent the value of the Company. It is best used when the company is non-operating or has been generating losses.

**Basis of Valuation and Assumptions made by the valuer:**

**The valuation is based, on the aforesaid methods as described below:**

**VALUATION OF PTPL & QWSPL:**

Drivers in choosing the method of Valuation Analysis:

- Information
  - Availability
  - Reliability
- Characteristics
- Current and future cash flow status.

To determine the value of PTPL, Valuer has considered Adjusted Net Asset Value under Net Asset Method being Parent Holding Company. Further, all its Subsidiary Companies and Step down Subsidiary Companies have been valued through Discounted Cash Flow Method on going concern basis except Ad Meridian, a Wholly Owned Subsidiary of PTPL which has been valued under Net Asset Value Method being a Parent Holding Company.

To determine the value of QWSPL, the Valuer has considered Discounted Cash Flow Method under Income Method on Going Concern assumption.

**VALUATION OF VERTOZ**

- For determining the Fair Value of Vertoz, the Market Prices disseminated on the National Stock Exchange of India Limited (NSE) were considered, since the Shares of Vertoz are Frequently Traded Share in terms of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended.
- The Fair Value has been considered by complying the provisions of Chapter V of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended.
- The Fair Value has been arrived at Rs. 94.33 per Equity Share of face value of Rs. 10/- Each.

## Conclusion ratio:-

“1,904 (One thousand Nine hundred and Four) Equity Shares of Rs. 10/- each of Vertoz for every 1 (One) fully paid up Equity Share of Rs. 10/- each held in PTPL”.

“502 (Five hundred and Two) Equity Shares of Rs. 10/- each of Vertoz for every 1 (One) fully paid up Equity Share of Rs. 10/- each held in QWSPL”.

**INTERNAL RISK FACTORS**

**INTERNAL RISKS**

We rely on the Information technology systems, networks and infrastructures to operate our business and any interruption or breakdown in such systems, networks or infrastructure or our technical systems could impair our ability to effectively deliver our products and services. Further, internet penetration in India is very vast and may increase in the future. If the internet infrastructure suffers interruptions, breakdowns or reduced growth, it may adversely affect our business and results of operations.

We face intense competition and this presents a continuous challenge to our success. We have a significant component of the Group's business and acts as a captive, the pricing of the services as per the prevalent norms and modification to these could result in changes to the margins of this relatively low risk portfolio.

There are few ongoing GST Appeals and a Tax Proceeding involving PTPL which if determined against us, may have an adverse effect on our business.

Our inability to attract, train and retain qualified personnel may have an affect on our business.

Our inability to manage the rapid growth in scale of our operations or adapt to technological developments or trends could affect the performance and features of the services we provide, thereby, adversely affecting our business operations.

Implementation of the Scheme completely depends on the approval of Regulatory Authorities. Any modification or revision in the Scheme by the Competent Authorities may delay the completion of the process.

**INTERNAL RISK FACTORS**

**INTERNAL RISKS**

We rely on the Information technology systems, networks and infrastructures to operate our business and any interruption or breakdown in such systems, networks or infrastructure or our technical systems could impair our ability to effectively deliver our products and services. Further, internet penetration in India is very vast and may increase in the future. If the internet infrastructure suffers interruptions, breakdowns or reduced growth, it may adversely affect our business and results of operations.

We face intense competition and this presents a continuous challenge to our success. We have a significant component of the Group's business and acts as a captive, the pricing of the services as per the prevalent norms and modification to these could result in changes to the margins of this relatively low risk portfolio.

There are few ongoing GST Appeals and a Tax Proceeding involving QWSPL which if determined against us, may have an adverse effect on our business.

Our inability to attract, train and retain qualified personnel may have an effect on our business.

Our inability to manage the rapid growth in scale of our operations or adapt to technological developments or trends could affect the performance and features of the services we provide, thereby, adversely affecting our business operations.

Implementation of the Scheme completely depends on the approval of Regulatory Authorities. Any modification or revision in the Scheme by the Competent Authorities may delay the completion of the process.

### **Information Other than the Standalone Financial Statements and Auditor’s Report Thereon**

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexure to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the Standalone Financial Statements and our auditor’s report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Annexure “A” to the Independent Auditor’s Report**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **VERTOZ ADVERTISING LIMITED** (“the Company”) as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### **Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Notes forming part of the Standalone Financial Statements for the period ended 31<sup>st</sup> March, 2023

of financial asset and financial liabilities, that are not at fair value through profit and loss, are added to the fair value on the initial recognition.

**Subsequent measurement****(A) Non derivative financial instruments****(i) Financial Assets at amortised cost**

A financial assets is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade receivables do not carry any interest and are stated at their nominal value as reduced by impairment amount.

**(ii) Financial Assets at Fair Value through Profit or Loss/Other comprehensive income**

Instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

If the company decides to classify an instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

**(iii) Financial liabilities**

The measurement of financial liabilities depends on their classification, as described below:

**(a) Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. However, the Company has borrowings at floating rates. Considering the impact of restatement of Effective interest rate, transaction cost is being amortised over the tenure of loan and borrowing.

**(b) Trade & other payables**

After initial recognition, trade and other payables maturing within one year from the Balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**(B) Derivative financial instruments**

The company holds derivatives financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. Company has taken all the forward contract from the bank.

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

**Information Other than the Consolidated Financial Statements and Auditor's Report thereon:**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report and Shareholder's Information but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Consolidated Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced.

We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

- 1) As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

## **Annexure “A” to the Independent Auditor’s Report**

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of **Vertoz Advertising Limited** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Vertoz Advertising Limited** (“the Company”) as of March 31, 2023 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

statement of profit and loss are translated at the average exchange rate during the period. The differences arising out of the translation are recognized in the statement of profit and loss.

**d) Non-Integral Operations:**

The excess tax paid under MAT provisions being over and above regular tax liability can be carried forward for a period of ten years from the year of recognition and is available for set off against future tax liabilities computed under regular tax provisions, to the extent of MAT liability.

**b) Deferred Tax:**

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result between the profit offered for income taxes and the profit as per the financial statements of each entity in the group.

Deferred taxes are recognized in respect of timing differences which originate during the tax holiday period but reverse after the tax holiday period. For this purpose, reversal of timing difference is determined using first in first out method.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment/substantive enactment date.

Deferred tax assets on timing differences are recognized only if there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and losses carried forward exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a

whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not

be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls over financial reporting of **PAYNX TECHNOLOGIES PRIVATE LIMITED** (“the Company”) as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### **Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced.

We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

- 1) As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, and the relevant provisions of the Companies Act, 2013 ("the 2013 Act")/Companies Act, 1956 ("the 1956 Act"), as applicable, Indian Accounting Standards ('Ind AS')/guidance notes issued by the Institute of Chartered Accountants of India (ICAI) and other generally accepted accounting principles in India.

## PayNX GROUP

Notes forming part of the Consolidated Financial Statements for the period ended 31<sup>st</sup> March, 2023

### iv. Fixed Assets:

Tangible assets are stated at historical cost less accumulated depreciation and impairment loss, if any. Costs include expenditure directly attributable to the acquisition of the asset. Borrowing costs directly attributable to the construction or production of qualifying assets are capitalized as part of the cost. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. During the period under review no intangible assets are stated at the consideration paid for acquisition less accumulated amortization and impairment loss, if any.

### v. Investments:

Non-current investments are stated at cost less other than temporary diminution in the value of such investments, if any. Current investments are valued at lower of cost and fair value determined by category of investment. The fair value is determined using quoted market price/market observable information adjusted for cost of disposal. On disposal of the investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

Advance payments received from customers for which no services have been rendered are presented as 'Advance from customers'.

#### B. Others:

Such exchange differences are subsequently recognized in the statement of profit and loss on occurrence of the underlying hedged transaction or on disposal.

**c) Integral Operations:**

**b) Deferred Tax:**

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result between the profit offered for income taxes and the profit as per the financial statements of each entity in the group.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment/substantive enactment date.

Deferred tax assets on timing differences are recognized only if there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and losses carried forward exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

**Basis for opinion**

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Reporting of key audit matters as per SA 701, Key Audit Matters are not applicable to the Company as it is an unlisted company.

**Information other than the financial statements and auditors' report thereon**

The Company's board of directors is responsible for the preparation of the other information. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
